# ORGANIZATION IS PLANNED BY MEN

Committees Are Appointed To Represent National Groups on Campus

CLOSER RELATIONS AIM OF MEMBERS

Meetings Have Been Held By Organizers; Next Is Set For Tuesday

Plans for a new organization of all the fraternities on the campus were discussed at a meeting of representatives of the fraternities held at 4 p. m. Tuésday in McVey hall. Committees to represent the fraternities and the faculty council were appointed. The fraternity committee is composed of William Humber, chairman; H. V. Bastin, Harvey Mattingly. Harry Dies, and Gordon Burns. The faculty committee is composed of Dean W. E. Freeman, Roy Moreland, Capt.

Robert Pate, representing the Delta Tau Delta fraternity, and Larry Chi fraternity. It was suggested at this meeting that an Inter-Fraternof all national fraternities on the campus, for the purpose of co-operating with the administration in the fostering of closer inter-fraternity relationships.

It is the intention of those inorganizing the new council that the organization shall role of Captain Stanhope, calls for carry out an extensive program of a young man of a temperamental worth-while activities, and that it nature who, in the presence of his shall broaden the scope of such ac- army equals, reveals his true hartivities by joining the National Inter-fraternity council.

Tonight and Saturday night, with the presentation of R. C. Sherriff's "Journeys End," Guignol will conclude the current offering of the fifth little theater season. Contributing in no small way to the cultural life of the campus, the cast scores in this unusual war time play. From the opening lines to the cyclonic ending the players interpret their parts in a manner that smacks of the professional stage.

## SuKy Plans Dinner, **University Tag Day**

Annual Dinner Dance in Honor of Varsity Scheduled for Week of December 12

Plans for a university tag day and additional plans for the annual SuKy dinner dance in honor of the varsity football team were made at the regular weekly meeting of the pep group Tuesday afternoon. The banquet probably will be given some time during the second week in December, it was said.

Reports of the committee sent to Tennessee was given and the adoption of cheer leading plans as em-ployed at the Knoxville school were decided upon. In order to increase the amount of cheering at basket-ball games, members of the circle decided to make efforts to secure special sections for use of members of the group and to be designated as a special cheering section.

Alice Lang, John Carter, Nell Dishman, Betty Boyd, and Wilford Graves were selected as a commit-tee to arrange the contemplated football banquet. George Wilson will be in charge of the tag day and all tryouts for the circle will be required to sell, was the decision of the group.

Articles By Moreland and Willis Are Featured in Latest Number

The November number of the Kentucky Law Journal has just been issued. The Journal is published four times each year by the College of Law. The present issue contains an article on "The Evolu-tion of the Law," by Simeon S. Willis, member of the Court of Appeals of Kentucky. This is a study growth and progress of law

Roy Moreland, professor of Law at the University of Kentucky, writes on "Waiver of Jury Trial in which the adoption in Kentucky of a statute allowing waiver of jury trial in all cases except where a sentence of death may be imposed is urged. Prof. Frank Murray of the College of Law continues his work on "Kentucky Annotations to the American Law Institute's Restatement of the Law of Contracts." This work is being done by Professor Murray in co-operation with the Kentucky State Bar association.

The November Journal continues series of opinions handed down by R. C. Stoll, while judge of the Fayette Circuit court. An opinion by Chester Adams, Judge Fayette Quarterly court on the same legal point raised in Judge Stoll's ion is included. The Journal also contains other notes, student notes and book reviews.

## Trimble Speaks On Russian Trip At Y. W. Vespers

Professor E. G. Trimble spoke at the regular Y. W. C. A. vespers Tuesday night on his recent visit to Russia. Professor Trimble said that although the 5-year plan is incomplete in some points, it is suceeding in others.

Through the aid of an interpreer, a young American engineer of Russian parentage, he was able to converse directly with workmen, students, and guides of Russia. Although he was unable to draw definite conclusions because of the short time he was able to spend in Russia, Professor Trimble said that the majority of people in all classes of society were enthusiastic about the plan, and seemed to understand something of it, and of the communistic order.

After Professor Trimble's talk a pertinent discussion was held. Women students interested in discussions of this type are urged to get in touch with the Y. W. office immediately. The World Fellow-ship committee is holding an interesting series of discussions on students of today in various countries. The next meeting will be held at 4

### INTERNATIONAL RELATIONS CLUB

An extensive informatory program of study for the next four first subject will deal with the Chinese-Japanese situation. Problems of internatinoal interest are included on the program of events, and a number of speakers have been asked to address the group.

The club gives members unusual opportunoity to receive information and to exchange opinions on current event subjects dealing with international topics. A great fund of knowledge is placed at the disposal of those who attend its meetings. Topics are discussed from every angle, and it is possible to arrive at definite conclusions concerning problems of paramount interest to all nations.

The activity of the club is to be commended. There are many similar organizations on the campus which operate in name only. Their activities often cease with election of officers. The International Relations club is not stagnant. It is carrying out its purpose and policies to a degree which makes it a vital organization on the campus.

### YOUR MONEY'S WORTH

Each semester, 50 cents of every student's tuition fee is allotted to the university dispensary. Appropriations from the university general fund take care of the bulk of the dispensary expenses. For the small sum of money paid by them, health service, diagnosis, and medical treatment is given the students by the dispensary personnel including four competent physicians, a bacteriologist, a nurse, and a secretary

In cases of serious disorders, students are referred to downtown.

With no fees to pay, students feel free to seek advice at the dispensary. Because of this early attention, illnesses can be prevented or checked before they assume serious proportions. Not only individual students are benefited, but also the university, as the general health of the student body is raised to a higher level.

The dispensary has become an institution on the campus. Its values greatly exceed the initial fee which matriculants pay. Students are receiving more than their money's

ANOTHER POINT OF VIEW (To the Editor of The Kernel) Dear Sir:

I should like to offer a word in criticism of J. Wesley Littlefield's review of Chas. Morgan's novel The Fountain which was printed in a recent issue of The Kernel. Mr. Littlefield believes that the book has little merit and if his comments and factual summary of the plot exhaust its substance, we must admit that he is right. The truth is, however, that Mr. Littlefield has given an account only of the book's details: its essence and charm have

escaped him.
I shall mention only one point. Mountain, The Fountain is a novel with a thesis. The Magic Mounin their work.

The English club, like many other symbolical of two conflicting points stoyan. Mr. Morgan's book might similarly be said to be a study of asceticism which Allison at first embraced. And the whole novel concerned to show that Allison's ational mind on the contrary Mr. Morgan believes, moves by pref all human interests in due propor Thus when Allison's love for Julie von Narwitz develops he re-nounces his asceticism, but their love while it remains rooted in a sensual base, flowers into ideality And Allison discovers embodied in this world that which he sought to

find in another. One thing more. Mr. Littlefield remarks that he can discover in The Fountain no "Platonic love" and goes on, apropos of nothing, to tell us the true nature of this sort of love. Now Mr. Littlefield ignores the fact that the author of the foolish and inconsequential book which he cites in support of his contention, is at variance here with

John Barrymore as the star of the RKO's "A Bill of Divorcement," opening Saturday at the Strand theater, is cast in the role of a broken wraith of a shell-shocked soldier returning from the Great War to strive desperately, vainly, to adapt himself to the changed conditions of his home. Supporting Barrymore in the cast of this play portraying all the drama and pathos of those who found rough going on the "way back," are Billie Burke, Katherine Hepburn, David Manners, Paul Cavanaugh, and other equally brilliant actors. Have you recently slipped unobtrusively into the Kernel Business office and asked the pleasantlooking boy with the nice brown eyes where he was heading the Kernels these days, only to be cholerically repulsed and forcibly referred to the lanky circulation manager? Yes? Well, we want to reassure you that our business manager isn't always like that; in fact, Coleman Smith is quite human, at times. This is simply his third year as business manager of the Kernel and it's beginning to tell on his nerves; Kernel business managers seldom stand it more than a year. but "Smythe," as he is affectionately known, "can take it."

Reister: My ideal co-ed would be at least 5 feet 6 inches tall, brunette with brown eyes, agreeable disposition, have lots of pep. She must like all sports, be a good dancer, have a winning peronality, and be at least slightly intelligent. She must be a good conversationalist.

An ideal doesn't have any characteristics; if she were an ideal she wouldn't be a co-ed; she were a co-ed she couldn't be anyone's ideal—and anyway, don't get conceited and think you pick the woman—she does the choosing and makes you like it.

Coleman Smith: My ideal co-ed would be a good sport and not expect boys to spend too much money She would refrain from smoking and chewing gum in pub-Delmar Adams: My ideal co-ed

would be a good mixer and not only associate with members of her own sex but with men also. She would not try to amass a great number of pins or break every one's heart. She would be pals with everyone. Gil Kingsbury: Height 5 feet 2 inches, decidedly brunett, brown eyes, exceedingly thin, an excellent line, home economics major, clinging vines preferred, fair dancer and an excellent "sitter out". She must "keep kissable", have that "school-girl complexion", know that "it is smart to be thrifty", "reach for a coke instead of a sweet." She must emember that "Nature in the ray is seldom mild." And forget that such popularity (as hers) must be

Nick Chepeleff: I had an ideal before I came to the university.

Park Smith: My ideal co-ed would be pleasant, well-dressed, nice family, not snobbish, lots of open dates for me only. Oh well, who wants to be an ideal

## W. A. A. Floor Show At 8 p.m. Tonight

Featuring university talent, the Women's Athletic association will sponsor a floor show and informal dance from 8 p. m. until 10:30 Friday night in the Women's Proceeds from the affair used to provide funds for the activities sponsored by the or-

According to present plans, the program which will be given during ntermissions between dance selections by Roy Sharpe and his orchestra will include acrobatic dances by Marjorie Powell and Wildan Thomas, a costume dance by Jean Foxworth, a tap routine by a team composed by Hazel Nollau and Elizabeth Montague, and songs by Dorothy Strother.

Tables will be arranged in cabaret style and members of W. A. A. will sell refreshments

(Continued from Page One) former teammate of Munn. Potter blushingly gives his weight as 185, stripped. For substitutes the coaches have Niel Plummer, giant lines man from Pittsburg. Plummer has turned down several offers to play with such outstanding teams as the Green Bay Packers and Ports-mouth Spartans but would much rather play for dear old Podunk.
Another sub is Boles, former Vandy flash; Peak, sub flankman will be remembered by many 'Cat fans, and Martin, flashy sub back who is the main spring of the bench play in which he gets the ball on the sidelines and tosses it to Mann who scampers for a score. Mrs. Mc-Kinney, the Coaches sponsor will parade to the field sporting a vast

bunch of Dandelions and Lillies of the Valley.

The Faculty have named four blushing beauties as their sponsors to Sheils at Kernel news room. Since each member of a society is the Valley. but refuse to make their names public. We suspect, however, that

they are—well let that pass, any-way they will have four beauties on hand to cheer for them. In making preparations for this big struggle the proceeds of which are to go to the student loan fund or some other needy source, the

Coaches have spared no effort or expense to make the affair a suc-cess. The teachers will sport four lines averaging from 235 down to 187 pounds and six backfields averaging around 190 pounds. Gayle "Politics" Mohney, star quarterback and "Skinny" Welch, 275 pound tackle, are numbered among the starters along with another tackle who starred at Harvard and is said sorority average was 1.9 higher than sorority with the large error of 3.4 which makes the difference neglible. to weigh 246. The Coaches worked out all day Tuesday, Wednesday, Thursday, will spend today in the hospital getting

in shape and the Faculty say the will return there tomorrow night after the game. In conclusion we quote the coaches' tackles, Gamage and Shively, who say they are aiming to take out the referee and other officials on the first play, and not bother the other team until they can play without offcials.
